

### **Call for Participation**

We invite you to join us in **15<sup>th</sup> International Conference on Grid Computing (GridCom 2023)**

This Conference will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Ubiquitous Computing. Current information age is witnessing a dramatic use of digital and electronic devices in the workplace and beyond. Ubiquitous Computing presents a rather arduous requirement of robustness, reliability and availability to the end user. Ubiquitous computing has received a significant and sustained research interest in terms of designing and deploying large scale and high performance computational applications in real life. The aim of the conference is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field.
